PROJECTS

Dino CSS

Experimented with box shadow and gradient colors to build a dinosaur on a sunny day.

https://codepen.io/QuentinCarlin/pen/aaNgEL

First Website

Practiced building out a page for a store front. Experimented different ways to position with css.

https://carlinquentin.github.io/firstWebsite/#

Recipe Finder

Built my first API which allows the user to search for a dish and will be given a list of recipes.

https://carlinquentin.github.io/CarlinQuentin.github.io-api/

Story Log

Built out a backend using Node .js, sequelize, and nodemon. Built the front end with React. Users have the ability to create, get, update, or delete, information, while the admin has the ability to delete other users.

Where to Eat?

Was given 48 hours to build out an application that used the yelp api to generate a random restaurant based on location and price, as well as displaying data such as address, contact info, and weather they are open.

- Completed the project in 24 hours

TECH SKILLS

- HTML5
- CSS3
- JavaScript
- Github
- Agile Development
- Bootstrap
- React
- Typescript
- Visual Studio
- Node .js
- Angular7

EXPERIENCE

McDonalds, Auburn IN - *Employee*

December 2016 - May 2018

- Upheld high standards of customer service during high volume, fast paced operations.

Starbucks, Auburn IN - *Barista*

May 2018 - August 2018

- Demonstrated my ability to remain calm through high stress situations.

- In a addition to completion, I also deployed to heroku
